Quadruple glazed doors	Handy storage compartment Extra storage always comes in handy, so with a clever storage compartment you can easily stow away any extra pots and pans.	Dark Stainless Steel Finish	Clip-on plinth included

BENEFITS

AirFry for that perfect, crunch
When a food craving hits, make healthier and delicious food right in your oven with minimal oil. Deliver all the flavour and none of the guilt. AirFry allows you to make healthier, tasty meals for the entire family right in your oven.

Tastier baking starts with steam
Take your baking to the next level with our EasyBake +Steam function. Steam helps you get a better rise, crispier crust, a fluffier centre and tastier textures for all your bread, pastries, cakes, and puddings.

Twin fan system for even cooking
Cook each dish to perfection with the Twin Fan System. Fans rotate in opposite directions, distributing heat evenly throughout the oven, so you enjoy great results every time.

Designed for ease and safety
Telescopic runners are another piece of thoughtful design that makes it easy to draw racks out and safely check on your dishes during cooking.

Induction cooking

Enjoy the safety and efficiency of induction cooking. Almost twice as fast as gas or electric in transforming energy into heat, you'll save not only time but money too. What's more, induction cooking only generates heat in the cookware, so surfaces around the pot are cool to touch. Therefore the cooking environment remains cooler and safer. The surface is also easy to clean, as any spills are simply wiped away.

Built in Australia

Westinghouse, has been the heart of the home for generations and the kitchen appliance brand we have always known and trusted to build reliable products. This oven is built in a local factory in Adelaide.

Clear the air with Hob2Hood

With Hob2Hood technology, compatible rangehoods work seamlessly with your Freestanding cooker to clear your kitchen of cooking smells and steam. As you start cooking, the rangehood will automatically turn on then intuitively adjust the fan speed and airflow to match your cooking. How's that for hands-free convenience?

Easy installation

Before upgrading to your new induction freestanding cooker, ensure your house has enough power to run the appliance properly. This product can run from 40A of power, meaning you may not need to update your power board.

Ovens that clean up after themselves

Even cleaning up is easier with Westinghouse. Choose a PyroClean oven and with the press of a button you can keep your oven shiny and clean. The oven turns on to an extremely high temperature, turning grease and grime into ash. All you need to do is simply wipe the residue away. No nasty chemicals, no greasy mess just a sparkling clean oven with minimal effort.
