RRP AUS \$3,299.00

Product Details

FEATURES

Built in look	4 Star energy efficiency	Autolce	WaterStream
TasteSealPlus Drawer	TasteLockAuto Crisper	Four-drawer storage system	EvenTemp
TasteGuard deodorizer	Inverter Technology		

BENEFITS

DESIGNED FOR A PERFECT FIT

The refrigerator is designed for easy installation and to slide effortlessly into a standard 1800mm height space with a choice of slot-in options for a perfect fit. A slimline door design enables the refrigerator to sit flush with customised cabinetry, leaving a minimal surrounding gap for a seamless kitchen aesthetic. The doors extra-wide opening, up to 122°, provides greater ease of access to refrigerator contents.

SAVE ENERGY. SAVE MONEY.

The refrigerator carries a 4-star energy rating thanks to Electrolux inverter technology. This high energy efficiency results in lower running costs, so you're saving electricity and money without compromising on performance. You can save up to \$225 in running costs over 10 years*. *Saving indicative based on average NSW 24.8/kWh vs 3 star energy rating (see Energy Rating Calculator)

NO MORE COMPROMISES

The TasteSealPlus convertible compartment easily adapts to the temperature required, giving you the freedom to store everything from cheeses & deli meats to cold drinks. You can even store meat and fish without freezing (chilled -2C), avoiding the need for inconvenient defrosting. Always find the right space to keep your food fresh and full of flavour by choosing one of the three temperature settings from -2C to 3C.

FRESH FRUIT AND VEG, ALL WEEK

TasteLockAuto crispers do what they say they do - lock in taste automatically. These sealed crispers with automatic humidity control maintain the right humidity levels for fruit and vegetables, removing excess moisture, reducing condensation and keeping your produce fresher for longer.

ICE ON DEMAND WITH FASTICE

The convenient Autolce automatic ice maker ensures that you always have plenty of ice cubes at hand to cool down your drinks. Choose the FastIce function to increase the speed of the freezing process and produce up to 25% more ice*. *Internally tested on Autolce regular mode compared with FastIce function over 24 hours.

CHILLED WATER ON DEMAND

WaterStream in door water dispenser allows you to effortlessly grab a chilled glass of water directly through the fridge door.

OPTIMAL FRESH FOOD STORAGE

Take refrigerator food storage to a new level of efficiency with this flexible four-drawer compartment. This system comprises four drawers, each dedicated to creating optimal storage conditions for specific food preservation needs and storage volumes. Two TasteLockAuto drawers with auto-humidity help retain fruit and vegetables freshness. The TasteSealPlus drawer, with three adjustable temperatures from -2C, 0C and 3C, is designed for chilling foods and drinks, while the DeliDrawer keeps dairy and delicatessen products at their best for longer.

OPTIMAL COOLING

EvenTemp multiflow distributes and circulates cold air to every corner of the refrigerator to maintain a uniform temperature. Even after opening the door, the fridge will rapidly recover to the optimal temperature due to the EvenTemp metal multiflow. That means your food will stay fresh and tasty longer.

CLEAN, HYGIENIC STORAGE

TasteGuard deodoriser uses a carbon filter to help keep your fridge fresh, hygienic, and free from unwanted odours that can change the taste and smell of your food.

ENERGY-SMART TECHNOLOGY

Electrolux refrigerator technology delivers greater energy efficiency and quieter noise level*, while enhancing fridge performance, durability, and longevity. The Inverter Compressor automatically adjusts the running speed in response to cooling demand creating a constant, optimal food storage temperature using significantly less energy**.

Specifications

PRODUCT PROFILE

Domestic warranty details (yrs)	2
Refrigerator Type	french door
Exterior door finish	Black
Handle design	bar handle
Fridge door opening	left and right
Cooling system	frost free
Refrigerant	R600a
