IOI makes cooking easy

Elegant and effective oven display

Huge 80L gross capacity oven

Excellence with steam

Smart Food Probe

Pyrolytic self-cleaning oven

FullFlex Telescopic Runners

Soft close door

BENEFITS

IOI makes cooking easy

Experience a simpler, more enjoyable way to cook. Our unique Intuitive Oven Interface (IOI) makes our ovens so easy to use you won't need a manual. Plus the elegant full colour screen displays temperature and function feedback so you can easily program and check your cooking for impressive results without the extra effort.

Elegant and effective oven display

Elegant and stylish, the full colour screen displays temperature and function feedback. The high definition full colour animation clearly shows the oven's status and proves that functional design can be beautiful too. What's more, the Black oven range has a full black front when powered off. Yet, with just one touch from your finger, the oven display will come to life and be ready to create your next delicious meal.

Huge 80L gross capacity oven

Designed for the entertainer and large families, this large capacity 80-litre oven will make catering for every occasion quick and easy. Plus, energy use is also kept to a minimum, despite its size.

Excellence with steam

Steam combined with traditional hot air cooking makes good food great. The colours are richer, the food more moist and flavoursome, and your guests more satisfied.

Smart Food Probe

Never overcook a roast again. The convenient Smart Food Probe measures the core temperature of food and switches off the oven when it's ready.

Pyrolytic self-cleaning oven

Introducing an oven that cleans itself. Pyrolytic cleaning removes the need for you to use harsh chemicals to clean your oven. Simply set the Pyrolytic function, come back when it is complete and wipe away the residue.

FullFlex Telescopic Runners

Our FullFlex telescopic runners give you safe, easy access all areas of your oven. This makes it easier to turn and stir your food for great results every time.

Cooler touch door

For added safety and confidence in the kitchen, the cooler touch door features an innovative door cooling system with multiple glazed door panels. The door design minimises heat being transferred outside the oven, while ensuring a cooler touch oven door and cooler kitchen environment.

Specifications

PRODUCT PROFILE

Domestic warranty details (yrs)	2
Type of Oven	Single steam & Pyrolytic oven
Oven fuel	electric
Materials/Colour	mark resistant stainless steel,black
Controls of Oven	IOI,touch
Cooling fan	Yes
